Defendant.)

The Court, having considered the Motion to Seal Dkts. 66 and 67 filed by Plaintiffs Infernal Technology, LLC, and Terminal Reality, Inc., hereby grants the motion. The Court finds that the common law presumption of access is overcome by Plaintiffs' interest in keeping confidential business and commercial documents from disclosure. Additionally, the Court finds that the alternatives to sealing the documents are inadequate as the documents contain frequent reference to confidential information, such information being integral in ruling on motions submitted by the Parties.

It is, therefore, ORDERED that Plaintiffs' Motion to Seal Dkts. 66 and 67 is GRANTED and Dkts. 66 and 67 are hereby ORDERED permanently sealed.
